

## Mergers & Acquisitions

We provide consulting of M&A at a pre-stage level mostly conducting due **diligence** or **EDD**. It is a highly targeted business focused on buyouts for our clients in the Middle East which are typically aligned to their core business or a classic diversification strategy. One of which is hospitality, whereby a typical buyout of a hotel is carried out. We arrange our clients to Germany based English speaking lawyers with corresponding expertise for consultations and to eventually execute the deal.
