

Due Diligence and Market Data Provisions

Due diligence is central to our work, we provide multi-level undertakings for our clients to optimize best possible decisions. Our co-verification model provides a credible set of information that our clients can rely on.

◆ International Financial Consulting (Financial Assets)

Family Offices and Ultra High Net worth individuals are our clients in this sector. Our company is composed of **Finance professionals** and **experienced in Banking** for more than 20 years to seek suitable Asset Management companies in Germany that are aligned to their goals and can execute investment strategies according to client's risk as determined by the sourced Asset Management Company.

◆ Venture Capital

We source VC companies through research execution and platform identifications that are vetted by seasoned and experienced investors in this sector.

◆ Real Estate

Our team conducts thorough research in real estate sector. We provide **newsletters** where current real estate situation is assessed for the use of our direct and indirect clients in this asset class.

It covers comparison among **major European countries** such as UK, France, Italy, Spain, and Germany. By giving our clients pertinent information such as **ownership** and **tax regimes** we position ourselves as a dependable partner in their acquisitions or indirect placements.

◆ Private Equity

With Germany's well developed and well-regulated financial system, foreign banks and asset management companies trusts to invest. In this asset class, we focused on selected entities, legal and individual to **diversify their portfolio**. Our role is to identify among numerous providers that match our client's preference. All of which are in the context of consulting services in sourcing vetted platforms that are particularly present in Germany.

◆ Other Alternative Investments

In order to build complete relationship with clients in consulting business, we round up a whole portfolio solution. Such includes Alternatives specifically Private Debt. Whether a client wishes to operate a business or divest indirectly into Real Estate, one's portfolio is not complete without a mix of fixed income avenues. Therefore, we provide, data and research capability to help analyse this asset class. Not commonly structured in our target market in Asia, Germany provides a complete range of assets secured by properties either in the form of senior, mezzanine, or a junior loan.
